TILLMAN DENIES THAT HE COMMITTED WRONG

Curbed His Pitchfork But Paid His Respects to President Roosevelt.

WASHINGTON, D. C., Jan. 12.—Being greeted by applause from the galleries when he entered the Senate chamber yesterday, to reply to President Roosevelt's strictures in respect to his connection with Oregon timber land transactions, Senator Tillman of South Carolina proceeded to read his prepared remarks, with little attempt at oratorical effect.

He was accorded careful attention by Senators on both sides of the chamber, the public and private galleries being taxed to their full capacity by visitors who occupied all the seats and standing room, while without the entrances long lines of men and women, unable to gain admission, stood for nearly three hours vainly hoping to enter the galleries.

In addition to his speech, which had been printed in advance, Mr. Tillman had prepared other brief remarks, which he read.

"It has been expected and desired," he said, "that having made my own defense I should turn my battery on my assailant. I do not feel that my strength is sufficient for the double task, for my physicians have warned me against over-taxing myself. One of the truest and best sentiments in English literature is this from Tennyson:

"Selling another will never make one's self clean."

"The President lives in a glass house with even a glass floor in it and should remember the old adage,

He has exerted all the power of the Government to destroy me, but I feel that I stand unscathed because if all other arguments fail to convince men the character for rectitude, truthfulness and honesty which I have builded in the sixty-one years of my life would at least be my bulwark. Men who have always been clean and honorable do not suddenly become liars and hypocrites at sixty-one without any necessity.

Roosevelt Comes Later.

"Later on in the session, it is my purpose to devote some time to bringing Theodore Roosevelt face to face with his true self and let the people of the United States see what character of man they have been so bowed down to. For the present I content myself with applying to him this question from Spencer's Fairy Queen:

"He ranges throughout the whole world, neither is there any that can restrain him. Of late he has grown especially presumptuous and pertinent barking and biting all alike whether they be blameworthy or innocent. None are free from this attack. He spares neither the learned wit nor the gentle poet, but reads and tears without regard of person, reason or time."

When Mr. Tillman concluded his remarks there was no further outbreak of applause, the vice-president having admonished the occupants of the galleries against making such demonstration. Mr. Tillman was congratulated by a number of Democratic Senators.

O'NEILL REMEMBERED BY THE FIRE BOYS

COMPANIES PRESENT HIM WITH HANDSOME GOLD SIGNET RING.

Token Came as Great Surprise to Ex-Chief, Who Doubly Values the Present from Them.

E. A. O'Neill was the recipient Tuesday from the old members of the two fire companies of a handsome old gold signet ring which came as a great surprise to the ex-chief who had handled several serious conflagrations while in the discharge of his duties as chief of the volunteer fire department here.

The present was accompanied by a communication from the members, and no one outside of the donors was acquainted with the proposed gift until it was turned over to Mr. O'Neill by a committee from the fire laddies appointed for this purpose.

Following is the letter:

"Gainesville, Fla., Jan. 12, 1909.
"Chief E. A. O'Neill, City.

"Dear Sir: On behalf of the members of the fire department, whose pleasure it has been to serve under you as their chief, we present this slight token of our esteem and lasting friendship. They will ever be mindful of your uniform kindness and consideration of each and every one of us; your unwavering regard for duty at all times, and the very efficient and thorough conduct of the department during your administration. We assure you that all the members of the fire department regret that you have felt compelled to relinquish the command of the department, especially in view of the fact that there is no one in the city who can worthily succeed you.

"With best wishes of every fireman, for your continued good health and prosperity, we beg to remain,

"C. C. PEDRICK,

"Foreman Hose Company No. 1.

"C. R. LAYTON,

"Foreman Hose Company No. 2."

Mr. O'Neill was deeply affected by the presentation of the ring and wishes to extend thanks publicly to each and every member of the department who have worked hard to make it what it has been and their untiring efforts to increase its efficiency at all times. The present is the more appreciated from the fact that it came from the boys, and he says that they, one and all, stood faithfully by their work and were found at their posts in all cases when needed.

Was Given Six Months.

Ed Townsend, a negro, was given six months in Judge Mason's court yesterday, charged with the larceny of a pistol from the cab of train No. 212. Officer Pinkston, after a short time on the case, succeeded in capturing the negro and at once brought him here, where he owned up to the charge.

MISSIONARY LEADERS ARE IN CONFERENCE

NEW YORK, Jan. 12.—Leaders in the missionary world representing forty-seven different denominations, practically including every branch of the Protestant church in the United States and Canada, will assemble in New York tomorrow to take part in the sixteenth conference of foreign mission boards. The sessions are being held at the headquarters of the International Young Men's Christian Association in East Twenty-eighth street, and will continue through Thursday. The delegates are the guests of the Young Men's Christian Association. Many matters of importance in the work of evangelizing the world will be taken up by the delegates from the foreign mission boards of the various denominations.

GOV. PATTERSON'S PLEA IS FOR LOCAL OPTION

"Prohibition is Wrong," Says Tennessee Governor in a Special Message to Legislature.

NASHVILLE, Tenn., Jan. 12.—Advocates of State-wide prohibition in Tennessee are freely predicting that such legislation will be enacted by both houses of the Legislature. Prohibition bills have passed second reading in both houses and the two committees on liquor traffic, after a most exciting and largely attended joint hearing of arguments for and against, voted to vote favorably the bills before them. The bills are counterparts.

The day has been one of sensations in legislative circles. Charges were made at a meeting of Methodist ministers that not only was money being used in large sums in an effort to defeat anti-whiskey legislation but that "beautiful fallen women" had been brought here for the same purpose.

In the Senate today, if members vote as they did in organizing that body, the measure's passage is assured, seventeen votes being necessary. In the House enough members have committed themselves on paper to assure its passage there. The Governor, it is conceded, will veto the measure, when the fight will be on again with renewed vigor. Only a majority is required to pass a measure over the Governor's veto.

The Governor's Message.

Nashville, Tenn., Jan. 12.—In a special message to the Legislature Gov. Patterson discussed in detail the subject of State-wide prohibition. He declared that State-wide prohibition is fundamentally and profoundly

wrong as a governmental policy and does not accomplish the result hoped for.

"He said it violates the plainest and most obvious rule, individual action and personal freedom. He declared that the use or non-use of liquor should be left to the individual. He reviewed the legislation by States on this subject, declaring that States cannot prevent the manufacture of liquor in other States and the shipment from other States. He declared further that until the United States forbids the manufacture and sale of liquor it is not possible to have a prohibition law.

To destroy the value of existing plants without remuneration, the Governor said, is confiscation without compensation. He asserts that prohibition States are filled with open and secret violations of the law and that the abolition of the sale of liquor by law is an "impossibility and an empty dream."

The Governor said the choice lay between regulation and control of the law. He made a strong plea for local option. He asserted that a majority of the people are not demanding State-wide prohibition and that there is nothing in the divine law which makes prohibition itself a moral issue. He urged the Legislature to proceed with deliberation and caution and with due regard for the welfare of the State, and in closing recommended that no bill or bills be passed prohibiting the manufacture and sale of liquor in Tennessee.

RADFORD TO EXPLORE THE ARCTIC ALONE

NEW YORK, Jan. 12.—Harry Vincent Radford, an explorer, will leave in a few days to explore the Arctic regions alone. From this city he will proceed to Edmonton, Alberta, where he will continue his journey on snowshoes, with a dog sledge and about four hundred pounds of baggage. The explorer expects to tramp about five thousand miles and to spend three years in his solitary wanderings.

Mr. Radford will traverse the barren Arctic regions studying vegetation and animals. He will collect zoological specimens for a scientific institution and take numerous photographs. The explorer has never visited these regions before and will have to depend entirely on the company of the Indians and Esquimaux, with whose customs and language he is not familiar. Mr. Radford has letters wishing him good luck from President Roosevelt, Archbishop Farley and numerous scientific societies.

Holding Their Cotton.

Tam Cato of Alachua was in the city yesterday. He states that he has so far not marketed a single pound of his last year's cotton and that a large number of planters in his section are in the same fix. The price he claims is far too low, and although there has been some increase in price he does not look for any change to take place for some time, which will enable the farmers to dispose of their holdings at a profit.

Stockholders' Adjourned Meeting.

The stockholders of The Dutton Bank met Tuesday in regular session, but owing to the death of President Thomas' mother the meeting was adjourned until next Friday, at which time the regular election of officers will take place.

Free School of Stenography.

If there are in the city of Jacksonville or the State of Florida fifty or more persons of either sex, between the ages of 15 and 50 years, who desire to take a course in stenography and typewriting, without cost, the announcement made herein will be of great interest.

As soon as suitable quarters can be obtained, The Pitman Shorthand School will be opened, where the very best instruction in the Pitman system of stenography will be given free. To insure the success of the plans of the philanthropic persons engaged in this worthy undertaking, they have secured the services of Miss Gertrude Dzialynski of this city, as teacher and manager of the school. Miss Dzialynski is recognized as one of the most expert reporters in the State, of wide experience in such exacting work as convention and court reporting, and also as teacher. Anyone desirous of entering the free class in stenography can obtain details of the offer by calling on Miss Dzialynski at room 215 West building, during the day, or at 420 Cedar street, in the evenings. The opportunity here presented for obtaining a complete course in stenography and typewriting without cost may never be presented again, and those wishing to take advantage of it will do well to investigate it at once, as the time for receiving applications and enrolling students will be limited.—Jacksonville Metropolis.

Convicted on Four Counts.

Deputy Sheriff Beckham yesterday brought to this city a negro of Campville who was convicted before Justice Dyess of that place on four different counts of larceny. The negro was given six months in each case.

Bank Will Close.

During the funeral services of the late Mrs. O. B. Thomas today The Dutton Bank will close for two hours, out of respect for the president, W. R. Thomas, and patrons will please take notice of this.

GAINESVILLE NATIONAL BANK

Re-Elects the Old Officers for Ensuing Year.

The regular annual meeting of the officers and directors of the Gainesville National Bank was held Tuesday in the offices of their building.

A dividend of 5 per cent was ordered paid the stockholders and 5 per cent was added to the surplus fund of the bank, which shows it to be in a prosperous condition.

The directors re-elected the old officers as follows: T. W. Shands, president; W. R. Stockert, vice-president, and Chas. G. Hargrave, cashier.

Will Raise Many Cukes.

T. J. Cane, the sawmill and turpentine man of Raleigh, was a visitor to Gainesville Tuesday. He states that the truckers in that section are preparing for their cuke and other spring crop, and that the acreage of the former will be very heavy the coming season.

The habit of answering ads. that appeal to you is one that will keep you interested in the life you are living, and prosperous.

AUCTION SALE OF AN ART COLLECTION

NEW YORK, Jan. 12.—A sale which has attracted the attention of art collectors all over the world will commence today, when the objects of art belonging to the estate of the late Baron Speck von Sternburg, German ambassador to the United States, will be put on the auction block. The German ambassador was a firm personal friend of President Roosevelt, and the latter will have a representative at the sale who will purchase for the President some memento of the German diplomat. The auction will continue through Thursday, Friday and Saturday afternoons. The catalogue, which runs to nearly a thousand numbers, embraces porcelains, bronzes, enameled, embroideries, rugs, tapestries and furniture, much of this material having been brought together by Baron von Sternburg while residing in the Orient. Among the tapestries there is one made in France in the eighteenth century by order of a Chinese Emperor.

The Farmers' Union.

ALACHUA, Jan. 12.—The Farmers' Union met at Perceverance on January 8. There was a large attendance and several made addresses to the farmers present, among whom was our State Treasurer, Mr. Knight. The good ladies of the neighborhood supplied a bountiful table with everything necessary to fill the inner man, and the day passed off very pleasantly.

On the following day Reid Buchanan, from Wakulla county, made a short talk to the local union at Alachua. Arrangements will soon be made for him to visit every local in the county.

MORE WATER OFFERED FREE TO THE CITY

ICE COMPANY WILL ALLOW CONNECTION WITH THEIR WELL.

Proposition Has Been Made to City Council, Which Has Referred Same to Water Committee.

The Diamond Ice Company has made the city of Gainesville a proposition whereby they can use the water from their 6-inch artesian well in the southern part of the city.

They will be allowed to connect a six-inch pipe to the well, and the ice company will furnish power to pump water free of charge during any fire that may occur, provided their plant is running at the time.

The company would get better fire protection from this service, as the mains will be laid to their buildings and in case of fire they will have the city to depend upon, which seems a fair proposition by the parties interested.

This proposition was made at the last meeting, but the required members of the council not being present no action was taken in the matter, further than to refer it to the water committee, to report at the next meeting.

Under this arrangement there would probably never be sufficient demand made on the city's supply of water to exhaust it, with the two wells and the springs all combined.

To Present Portraits.

On the morning of Tuesday, January 12th, at 9 o'clock, Kirby Smith Chapter, U. D. C., will present to the University of Florida portraits of Gen. R. E. Lee and President Jefferson Davis.

Stonewall Camp, U. C. V., and Lew Wallace Post, G. A. R., J. J. Finley Chapter, U. D. C., and the public generally are cordially invited to be present at the exercises in the University chapel attending this presentation.

WILSON WILL MOVE TO LARGER QUARTERS

HAS LEASED OLD HYDE BUILDING FOR NEW STORE.

Improvements Now Being Made to Conform With New Plans—Two Stores Will Be Operated.

Owing to the large increase in their business Mrs. R. Wilson has been compelled to seek new quarters, and will branch out at once, operating two stores instead of one, as in the past.

The old Hyde building has been leased for a term of years and a force of men put to work to remodel the place and in every way make it up-to-date and modern for the opening, which will occur about the first of February.

Mr. Gardner, the manager, was seen Tuesday and said that among the features of the new store will be a ladies' ready-to-wear department, which will compare, if not excel, anything to be found in the State. All ready-made goods will be carried, including a line of wash dresses, waists, etc., and the new place will be devoted to a general line of dry goods and notions.

The old building will be used for the carpets, matings and heavier goods, and under the new arrangements they will be enabled to carry a much greater assortment of stock than they have done in the past.

Mrs. R. Wilson has been in business here for the past thirty years, and she has always been found ready to push the city and her business, and the new place will meet with the demands of a fast growing city.

A POSITIVE CURE FOR INDIGESTION

If you have indigestion, your food ferments in the stomach and bawls. It does more: it decays, and the nutritious matter which should go to make new blood decays with it, and this leads to an impoverished condition of the blood, to nervousness, biliousness, constipation, sick headache, bad breath which disgusts your friends, and other disagreeable and unpleasant conditions.

And all this trouble is caused by the food that doesn't digest, but ferments and oftentimes rots in the stomach.

And fermentation is caused by the stomach not being strong enough and energetic enough to thoroughly mix the food with the digestive juices.

MI-O-NA is responsible for tens of thousands of cures. In fact, it is such a positive cure for indigestion and all stomach troubles that it is guaranteed by J. W. McCollum & Co. to cure or money back. The price of a large box of MI-O-NA tablets is 50 cents, and they are sure to promptly relieve the worst case of indigestion or gastritis. Try them.

CONTEST AROUSES GREATER INTEREST

Miss Katherine Haile Is Again in the Lead.

The standing of the different candidates in the piano contest had to be left out of the paper yesterday morning, much to the regret of the management and to the disappointment of the young ladies in the contest. A little before 10 o'clock Monday night our motor stopped on us, and it was impossible for us to get same started until we sent for Mr. Lewis, the electrician, and it was only then after several hours of hard work that it would run. It was then too late for the operator of our machine to set any more type.

Yesterday's count put Miss Katherine Haile back in the lead, with Miss Bessie Dupree a close second. Miss Dorian Ellis, as usual, piled up a big vote and bridges the gap between her and the leader a great deal. Miss Ellis is now only 16,875 behind the leader.

The Only Safe Way.

"No, I can't stay any longer," he said, with determination.

"What difference does an hour or so make now?" asked a member of the party. "Your wife will be in bed and asleep, and if she wakes up she won't know what time it is."

"Quite right, quite right," he returned. "I can feel my wife almost any time as long as I get home before breakfast. Why, I've gone home when the sun was up, kept the blinds shut, lit the gas and made her think that it was a little after 12. But, gentlemen, I can't fool the baby. I can make the room as dark as I please, but it won't make the baby sleep a minute later than usual, and when she wakes up hungry it comes pretty close to being morning, and my wife knows it. Gentlemen," he added as he bowed himself out, "I make it a rule to get home before the baby wakes. It's the only safe way."

A Dog Story.

At a farmhouse at which we have been staying a terrier, Rough, shares always his master's first breakfast, the bread and cream accompanying a cup of tea. Three corners he breaks off and gives to Rough, who eats the first two. Off the third he licks the cream, then carries the crust to a hen who each morning comes across the field where the fowls are kept and at the gate awaits her friend's arrival. Should others of the hens appear, Rough "barks them off" while his favorite devours her portion. —London Spectator.

A Tremendous Task.

"So you are going to study law?"

"Yes."

"Going to make a specialty of criminal law?"

"No."

"Corporation law?"

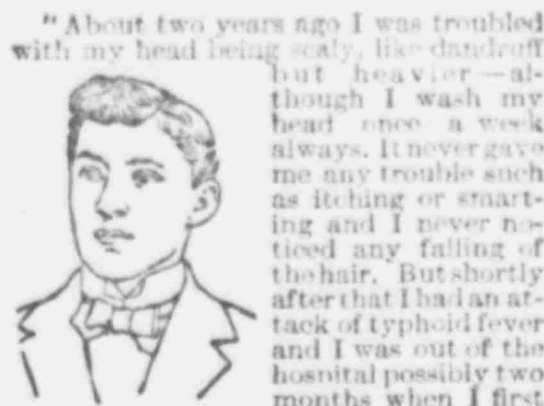

"No. Both are too easy. What I want is to be accurately and reliably informed as to what months in the year and days in the week it is permitted to shoot certain game in the various sections of the country." —Washington Star.

FEARED TOTAL LOSS OF HAIR

Scalp had been Scaly for Some Time — After an Attack of Typhoid Fever his Hair Began to Fall Out by the Handful — Now It Is

THICKER THAN EVER THANKS TO CUTICURA

"About two years ago I was troubled with my head being scaly, like dandruff but heavier — although I wash my head once a week always. It never gave me any trouble such as itching or smarting and I never noticed any falling of the hair. But shortly after that I had an attack of typhoid fever and I was out of the hospital possibly two months when I first noticed the loss of hair, my scalp being still scaly. I started to use a dandruff cure to no effect whatever. And I used a quinine preparation quite freely which did no good either. Whether it was the effect of the fever or some scalp disease I don't know, but I had actually lost hope of saving any hair at all. I could brush it off my coat by the handful. It got so bad that I didn't need to comb it any more — in fact I was afraid to. My brother, who had used the Cuticura Remedies with satisfaction, advised me to try them. After using two cakes of Cuticura Soap and nearly a box of Cuticura Ointment, the change was surprising. My scalp is now clear and healthy as could be and my hair thicker than ever, whereas six months ago I had my mind made up to be bald in a short time. I will have a photograph taken later and send you one. William F. Steese, 5812 Broad St., Pittsburg, Penn., May 7 and 21, '08."

Warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, assisted when necessary by Cuticura Resolvent (liquid or pills), afford instant relief in the most distressing forms of itching, burning, scaly, crusted humors, eczemas, rashes, inflammations, irritations and chafings of infancy and childhood, permit rest and sleep and point to a speedy and permanent cure, in the majority of cases, when all other remedies fail.

Cuticura Soap (25c.), Ointment (50c.), Resolvent (50c.), and Chocolate Coated Pills (25c.), are sold throughout the world. Potter Drug & Chem. Corp., Sole Props., 137 Columbus Ave., Boston.

WHEN YOU WEEP.

The Way That Tears Act Upon the Human Organism.

Professor Waynbaum, M. D., of Paris publishes some queer facts regarding the nature and purpose of tears, coming to the conclusion that tears act upon the human organism "like chloroform, ether or alcohol."

"When a human being gives way to sorrow," says Dr. Waynbaum, "the blood pressure in the brain decreases. The tear helps in this process, which benumbs the brain for the time being, causing passiveness of the soul almost approaching indifference."

"Tears are blood, changing color by their passage through the lachrymal glands. One can drown his sorrow in tears as one can benumb his senses by the use of alcohol or drugs. When a person cries the facial muscles contract and the appearance of the face changes, which action facilitates the white blood letting, driving the blood particles into the lachrymal gland, from which they issue in the shape of tears."

"Children whose nervous system is particularly tender derive great benefit from crying occasionally. The act of crying relieves their brains. The same may be said with respect to women."

The professor likewise explains why laughter sometimes produces tears, but the explanation is too technical for reproduction.

DISTRICT KNIGHTS HOLD CONVENTION

MET WITH MOUNT VERNON LODGE ON TUESDAY EVENING.

Two Sessions Were Held, Afternoon and Night, Which Ended in Elegant Banquet and Spread.

Mount Vernon Lodge No. 29, K. of P., added new laurels to themselves on Tuesday when the district convention assembled with them in this city for two sessions of this fast increasing order.

The convention was called by District Deputy Grand Chancellor Dr. N. W. Francis of Starke, and a large number of delegates from the several lodges in Bradford, Levy and this county were present.

An interesting program was prepared by the local Knights and the affair wound up in a brilliant spread for the visitors on Tuesday night.

Reports from the different lodges represented showed that the order has increased at a rapid rate within the past few months, notwithstanding the hard times, and many interesting talks were made by the delegates relating to the order.

Cause of Fatty Heart.

The great danger from obesity lies in the liability of the fat to invade the cellular elements of the body, especially the muscles. This produces fatty degeneration of the muscular tissues, which greatly weakens and impairs their functional activity. When the fat invades the tissues of the heart muscles the disease known as "fatty degeneration of the heart" results, and the patient is in serious danger. Whenever a slight additional strain upon the circulation results from undue exercise, excitement or other cause the muscles interfere with the heart's action, and it is liable to cease beating. Anaemia and hysteria often are accompaniments of obesity. Because of the increased weight and difficulty of moving about such patients are prevented from taking an ordinary amount of exercise. Often, too, there are a lassitude and a positive dislike for muscular exertion of any kind. — What to Eat.

From Medicine to the Drama.

The earlier part of Victorien Sardou's career was beset with many trials and difficulties. His parents wished him to take up a medical career, and he began his studies with some zeal. The love of the drama, however, was far greater than the love of the pill box, and in the interval of the other work Sardou was busy upon a play. Life was a struggle for him, for he had little money, though he managed to get journalistic work to supplement his more slender income. His first play was a failure, and Sardou rushed from the theater vowing never to enter one again. He fell seriously ill, was nursed back to health by Mile. de Brecourt, an actress who lived on a floor below, and from that time his fortune was made.

Literary Irrigation.

"Your latest novel seems very dry," said the reader of the publishing house to the young but rising author.

"I was pretty sure you would say that," rejoined the author. "Consequently if you will count them you will find the heroine weeps real tears on just 253 pages of my story." — Cleveland Plain Dealer.

Answer This Question

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Red Banks, Miss. — "Words are inadequate to express what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from a female disease and weakness which the doctors said was caused by a fibroid tumor, and I commenced to think there was no help for me. Lydia E. Pinkham's Vegetable Compound made me a well woman after all other means had failed. My friends are all asking what has helped me so much, and I gladly recommend Lydia E. Pinkham's Vegetable Compound." — Mrs. Willie Edwards.

Hampstead, Maryland. — "Before taking Lydia E. Pinkham's Vegetable Compound I was weak and nervous, and could not be on my feet half a day without suffering. The doctors told me I never would be well without an operation, but Lydia E. Pinkham's Vegetable Compound has done more for me than all the doctors, and I hope this valuable medicine may come into the hands of many more suffering women." — Mrs. Joseph H. Dandy.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful — or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

The Clay county commissioners seem to appreciate the importance of using a part of the bond money to construct the missing link connecting the Duval and Putnam county roads. Should this be done much benefit will accrue therefrom. Hard surfaced roads makes possible the cheapest and surest means of transportation. Products of the soil in Putnam or Clay counties could be placed aboard a wagon and upon one long unobstructed hard surfaced road brought to the Jacksonville market, where there is always a demand.—Times-Union.

The Thirteen Chicks.
How difficult it is to pick out truth or fiction from apparently straightforward recitals of the actions of animals is well shown in a communication sent to one of our foreign exchanges by a man who lays claim to long experience in breeding game birds. He stated in all seriousness that only two of his pheasant hens had hatched out seventeen of the eighteen eggs placed under each one in the nests. "It is a curious fact," he continues, "that both hatched off on the same day, and each hen immediately killed thirteen out of her seventeen live chicks by pecking their brains and laid them in a row in front of her, each exactly in the same way. I shall be glad to know whether or not a singular case has ever been recorded before."

Oh, shall I; but, at any rate, in this at least, thirteen was an unlucky number for both the chicks and their Sire.—Forest and Stream.

FEEBLE OLD LADY

Has Strength Restored By Vinol

Mrs. Michael Bloom of Lewistown, Pa., who is 80 years of age, says: "For a long time I have been so feeble that I have had to be wheeled around in an invalid's chair. I had no strength and took cold at the slightest provocation, which invariably settled on my lungs, and a cough would result. My son learned of the cod liver preparation called Vinol, and procured a bottle for me. It built up my strength rapidly, and after taking three bottles I am able to do most of my work, and I can walk a quarter of a mile easily. Every aged or weak person who requires strength should try Vinol. I am delighted with what it has done for me."

As a body builder and strength creator for old people, delicate children, weak, run-down persons, and after sickness, Vinol is unexcelled. If it fails to give satisfaction we will return your money.

ORIENTAL RUGS.

Made to Resemble the Antiques by Chemical Washings.

The United States buys annually many thousand dollars' worth of what are known to the profession as washed rugs. Brightly colored oriental rugs sometimes are washed with a solution of chloride of lime, a treatment which partly bleaches the colors and imparts a soft appearance to the rug.

This chemical treatment is a process of washing which produces the effect of age and a peculiar sheen to the surface, which is pointed out by the unscrupulous dealer as a proof of superior quality. The fact is that the process of washing as described invariably weakens and in some instances destroys the materials of the rug.

The progressive effect of the chemicals on the materials in the rug is this: The chlorine gas contained in the chloride of lime attracts oxygen and moisture from the air, by which muriatic acid is formed. This eats away the vitals of the rug. Sooner or later the wool and cotton in the rug become brittle and thus weaken the warp and deteriorate the wool.

When this deterioration is complete the pile of the rug may be swept away by the ordinary process of sweeping, and the warp, which is the foundation of the rug, becomes so weak that holes appear here and there, and soon the rug is worthless.

It not seldom happens that a Persian rug is too staring in some bright hue, perhaps red, and is not salable. The unscrupulous dealer will subject the rug to a series of washings in chemically prepared water. In this way he turns out a rug possessing a soft antique sheen that is truly captivating and finds a ready purchaser at an advanced price.—Chicago Tribune.

IT WAS A FINE COD.

A Little Story of William M. Chase, the Portrait Painter.

Several years ago I had a studio at Hammersmith and was hurrying into London one morning to transact some business. Just as I swung around a corner occupied by a fishmonger's market my eye was attracted to a magnificent cod stretched out for exhibition on a clean slab of white marble. Whatever my mood for color was that morning, that fish completely fitted and filled it. I must paint it, I decided.

I called out the proprietor and told him what I wanted. I was a bachelor, I explained, and did not want to buy the big fish. I only wished the use of it as a model. Could I rent it?

"Ow, now, sir," he said, with true British stolidity. "I'll never rent my fish. You see, it's Saturday, too, sir. I'll must sell him today, sir."

However, I explained that I needed the fish for only a few hours, and directly we struck a bargain. If after two hours I still wished to keep the fish I should buy it. At the end of the stipulated time the boy came. I was not quite finished. "In a few minutes," I said, and when I looked up he was gone.

Shortly afterward the proprietor came, tiptoeing in and peeping over my shoulder. I could hear him softly sighing, and I said nervously, "In a few minutes now, in a few minutes."

"Don't hurry, sir; don't hurry," he urged. "She's gettin' on! I'll take my chances, sir!"

When the painting was finished he refused at first to accept any remuneration, but at length, with a muttered apology, he charged—a shilling! The painting was hung and shortly afterward purchased by the Corcoran Art gallery for a very substantial sum.

On my next trip to London I determined to call up my fishmonger, tell him of the good fortune that had attended the painting and tender him some fitting reward. To my great surprise he not only refused again any sort of fee, but evinced no surprise whatever at the figure the painting had brought, though the price paid represented several times over the investment of his shop.

"Ah, but it was a fine cod, sir!" he said, and his eyes glowed with pride. "Now, wasn't it?"—William M. Chase in Delineator.

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

The Tallahassee True Democrat published the best likeness of Governor Gilchrist that has appeared in the Florida press.

The Sun is truly glad to observe that the City Council has made a contract whereby the street sprinkler will be used whenever its services are required to lay the dust. The present members of the council are practical men and are proceeding upon practical lines.

A great many people put themselves to lots of trouble in order to have trouble. They have imaginary ills, cross imaginary bridges and climb imaginary mountains. Most people have enough real trouble without letting the imagination conjure up a lot more. A spirit of real contentment would make life far easier and sweeter.

The apparent smoothness which Russian political matters show upon the surface is occasionally disturbed by outbreaks and slaughter. It proves that while the revolutionary movement failed a few years ago and that imprisonment, punishment and death have temporarily subdued the masses, yet discontent is still prevalent and is but merely biding its time before it makes another struggle for liberty. If the Duma is only allowed to work and act unhindered by the bureaucracy the evils will probably be redressed in a peaceful manner.

The other day we read in a prominent paper that "Jeffries is the only hope of the white race." It was a startling statement and visions of the "yellow peril," the little brown men of Japan and some great movement by the dusky hordes of India haunted us until we investigated the matter and found that it referred to a slugging match between two pugilists in which a negro won. The Jeffries to whom the statement referred is an ex-champion prize fighter and it is believed that he alone can regain the supremacy of the white race. This believed our mind and we regained our old confidence in the white race, with its religious and civil liberty and its high ideals. But think of the moral and intellectual caliber of the paper which thinks that the supremacy of the white race is contingent upon the outcome of a prize fight.

It is extremely doubtful if the Government or the public generally expected the United States supreme court to decide otherwise in the case of the Standard Oil Co. and the twenty-nine million dollar fine, still it is well that the appeal was made that the situation might be made clear. The decision itself will strengthen the rapidly growing conviction that fines are not an adequate punishment in the case of trusts which systematically violate the law because it pays them to do it. When such combinations have engaged in the practice for years and grow wealthy on it, the imposition of a fine, whether little or great, has no deterrent influence—they continue as before, and the moral consideration never troubles them. In most cases a prison sentence, even for a brief twenty-four hours, would be more effective than a fine of a million dollars.

CURRENT COMMENT.

The Washington Herald says: "After March 4 next it is probable this country will not feel quite so much like an 'E' fiddle string, keyed up to the 'busting' point, anyway."

The Birmingham News says: "Evidently the night riders did not know that it was loaded. They went a step too far, and the law will now demonstrate that they cannot insult it with impunity, as they thought. The verdict in the case of the night riders is a long step in the direction of better conditions in that part of Tennessee."

The Washington Post says: "Mr. Knox was practicing law in Pittsburgh when called to President McKinley's cabinet. Pittsburgh is full of corporations, and sometimes Mr. Knox had retainers from them; but the dockets of the inferior and superior courts of Pennsylvania will show that where he appeared once for a corporation he was counsel for half a dozen individuals or firms. And as before remarked, he won his place at the bar—in the front rank of the very elite of it—as opposing counsel to the great Watson. But they will have it that Mr. Knox is a corporation lawyer, and let it go at that. Just as pure and patriotic men as this country ever produced held the briefs of corporations."

The Montgomery Advertiser says: "We are very strongly inclined to the belief that Hon. Elihu Root has queer-ed himself with one part of the female part of our population. 'I do not consider,' he writes, 'that the granting of suffrage to women would under existing conditions be any improvement on our system of government. On the contrary, it would rather reduce than increase the electoral efficiency of our people.' Now, it doesn't matter a bit whether we, having due regard for caution and discretion, agree with him or not; we feel sure that suffragettes will take a fall out of him if opportunity offers."

The Baltimore Sun says: "We cannot understand why President Roosevelt did not order a squadron of warships to convey Mr. Roosevelt to the African coast. He might have done this, it seems, with little less consistency than he has displayed in detailing an army surgeon to accompany him to Africa. We are somewhat surprised at the President's moderation in this respect, but we assume there must be good reasons for it. But, at any rate, he has shown enterprise and sagacity in his arrangements with the Smithsonian and also in securing the service of Lieut. Col. Mearns. He will be renowned as long as the Smithsonian Institution stands and the Roosevelt label does not fall off the collection of the canniest faunal naturalist the world has ever seen."

If it is true that the Emperor William refrained from offering his hand to the president of the Reichstag because he wanted to snub that body, he was ill advised, for it will react upon himself and not injure the Reichstag. Certainly it is that the Kaiser has taken the practically universal criticism of his interference in foreign politics greatly to heart. But a graceful acceptance of the criticism would speedily have restored his popularity, whereas a petulance of temper and attempted snubs will still further strain the loyalty of his people.

The Sun is in receipt of the DeSoto County Edition of The Tampa Tribune, containing a complete write-up of the resources of that county. This is the third county covered in a series of counties which The Tribune is engaged in showing the advantages of. Manatee will be the next county on the list. Editor Stevall is certainly doing a great work for South Florida, and we are glad to observe that his efforts are duly appreciated.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Palme's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what
